

Matching Contracts and Examples (2)

Match each Example on the left with its Contract on the right. NOTE: Multiple examples may match to the same Contract!

Contract	Examples
<pre>examples: match(1.5) is "greater than 1" end</pre>	1
<pre>examples: match(24) is star(24 * 2, "outline", "purple") end</pre>	2
<pre>examples: match(string-length("tabletop")) is "8" end</pre>	3
<pre>examples: match(star(20, "outline", "red"), 3) is 3 * image-height(star(20, "outline", "red")) end</pre>	4
<pre>examples: match(circle(10, "solid", "silver"), 16) is 16 * image-height(circle(10, "solid", "silver")) end</pre>	5
<pre>examples: match("triangle", "blue") is triangle(40, "outline", "blue") end</pre>	6
<pre>examples: match(30) is star(30 * 2, "outline", "purple") end</pre>	7
<pre>examples: match(string-length("coffee"), string-length("tea")) is 6 + 3 end</pre>	8
	A # match :: Number > String
	B # match :: Number > Image
	C # match :: Number, Number > Number
	D # match :: String, String > Image
	E # match :: Images, Number > Number
